

Smoky Mountain Chapter Newsletter

Quarter 3, 2022

From the President *Kelly Pierson*

The 2022 SCTE EXPO was a huge success! It was great to be back in person and seeing old friends and making new friends. If you were not able to make this year's EXPO then hopefully you will be able to attend in Denver in 2023!

It's that time of year that elections are in the news and the Smoky Mountain election will be coming up soon. The nominating committee is meeting and soon will have a slate of nominees for the Smoky Mountain Board! Keep an eye on your email for notifications concerning the upcoming election.

If anyone is interested in serving as a volunteer in the SCTE Smoky Mountain chapter feel free to reach out. We would love to have you participate!

You can send an email to smokymountainpresident@gmail.com and let us know of your interest in becoming more active in the SCTE Smoky Mountain chapter.

SHAPING THE FUTURE OF CONNECTIVITY.

SCTE's Cable-Tec Expo – the largest cable telecommunications and technology tradeshow in the Americas – hosts thousands of attendees. Only at Expo will you find yourself at the nexus of content and service providers, technology partners, industry experts, and technology innovators.

BOARD OF DIRECTORS

Kelly Pierson

CORTEX®

VirtuLearn is here and is now part of SCTE training courses!

CORTEX VirtuLearn is a revolutionary, interactive, multisensory training experience for today's cable technical workforce.

SCTE is first in the industry to offer this 3D interactive training!

VirtuLearn enhances training efficiency and effectiveness in service installation, maintenance and troubleshooting for outside plant and at the headend, and more!

Increase your skills and knowledge—anytime, anywhere. See how CORTEX VirtuLearn from SCTE is an essential technical resource for training and on-the-job guidance.
